AMERICAN FULBRIGHT GRANTEES IN FINLAND
Academic Year 2007–2008

The Fulbright Center specializes in cultural exchange between Finland and North America. It awards grants for academic exchanges between Finland and the United States, advises on study and research opportunities in the United States and Canada, and offers computer-based testing for academic admission and professional licensure.

Fulbright Center is a non-profit organization funded by the Finnish Ministry of Education, the American and Canadian governments, and a Trust Fund founded by the Finnish and U.S. governments. The Fulbright Center is governed by an eight-member Board of Directors, with equal Finnish and American representation. The Finnish members are appointed by the Finnish Ministry of Education and the U.S. members by the American Embassy in Finland. The U.S. Ambassador to Finland serves as the Honorary Chairperson of the Board.

The Fulbright Center awards grants to over 70 Finnish and American students, academics, and professionals annually. This year, 31 Americans have received a Fulbright grant to lecture, conduct research, study, or teach in Finland.
